Every now and then some people need our attention

Make room in your heart

Every now and then some people need our affection

Make room in your heart

Make room for them

Make room for them

They all need a place to hide

Make room for them

Make room for them

Meet them with an open mind

For the warlord

They're just game

Dying children

On the plains

Barbed wire

No way to go

We have to get them out

Make room for them

Make room for them

They all need a place to hide

Make room for them

Make room for them

Meet them with an open mind

They need future

Some place to live

They need nurture

We have to give

They need shelter

A school to learn

We have to get them out

Make room....
